Contents Volume 65, 2002

George A. Kiersch Series in Principles of Engineering Geology
How to obtain earthquake ground motions for engineering design
E.L. Krinitzsky 1

Research Papers
3D characterization of coarse aggregates
F. Lanaro and P. Tolppanen 17
Slake durability and mineralogical properties of some pyroclastic and sedimentary rocks
G. Dhakal, T. Yoneda, M. Kato and K. Kaneko 31
7th Annual Report on the International Status of Engineering Geology—Year 2001 Encompassing hydrogeology, environmental geology and the applied geosciences
A.W. Hatheway and Y. Kanaori 47

Engineering and Environmental Impacts of Karst
Barry F. Beck (Guest Editor)

The Karst conferences, consulting reports as science, and geophysical pitfalls
B.F. Beck 81
Karst hydrology: recent developments and open questions
W.B. White 85
The protection of a karst water resource from the example of the Larzac karst plateau (south of France): a matter of regulations or a matter of process knowledge?
V. Plagnes and M. Bakalowicz 107
Geohazard map of cover-collapse sinkholes in the 'Tournaisis' area, southern Belgium
O. Kaufmann and Y. Quinif 117
Karst groundwater basin delineation, Fort Knox, Kentucky
D.P. Connair and B.S. Murray 125
Simulating time-varying cave flow and water levels using the Storm Water Management Model
C.W. Campbell and S.M. Sullivan 133
Shallow lateral DNAPL migration within slightly dipping limestone, southwestern Kentucky
M. Jancin and W.F. Ebaugh 141
Deep karst conduits, flooding, and sinkholes: lessons for the aggregates industry
J.L. Lolcama, H.A. Cohen and M.J. Tonkin 151
Dye study tracks historical pathway of VOC-bearing industrial wastewater from failed pond at metals coating facility
L.D. George and G.M. Ponta 159
The environmental hazards of locating wastewater impoundments in karst terrain
B.A. Memon, M.M. Azmeh and M.W. Pitts 169
Stability charts for predicting sinkholes in weakly cemented sand over karst limestone
D.J. Goodings and W.A. Abdulla 179
Stability evaluation for the siting of municipal landfills in karst
M.Z. Yang and E.C. Drumm 185

A decision-logic framework for investigating subsidence problems potentially attributable to gypsum karstification
J. Lamont-Black, P.L. Younger, R.A. Forth, A.H. Cooper and J.P. Bonniface 205
Road and bridge construction across gypsum karst in England
A.H. Cooper and J.M. Saunders 217
A case study of the reliability of multielectrode earth resistivity testing for geotechnical investigations in karst terrains
M.J.S. Roth, J.R. Mackey, C. Mackey and J.E. Nyquist 225

Research Papers
Support of unstable wedges along the Platamon railway tunnel under construction, in northern Greece
M. Chatziangelou, B. Christaras, G. Dimopoulos, G. Soulios and A. Kilias 233
A method to predict the group fissuring and faulting caused by regional groundwater decline
E. Rojas, J. Arzate and M. Arroyo 245
Research of soil–water characteristics and shear strength features of Nanyang expansive soil
L. Miao, S. Liu and Y. Lai 261
Correlation of TBM and drilling machine performances with rock brittleness
S. Kahraman 269
Geostatistical study of the feldspar content and quality of a granite deposit
J. Taboada, A. Vaamonde, A. Saavedra and C. Ordóñez 285
Shear strength of soils containing amorphous clay-size materials in a slow-moving landslide
Y. Wan and J. Kwong 293
